A Killing.

We take from the Las Vegas Daily Optic the following account of the killing of John Singer by G. W. Stonerod, one of the most prominent men in the south east: "The calamitous results of a night where whisky gives direction to the current of thought and assumes the office of speaker in the debate, is here truthfully, faithfully reflected. The acquaintances of Stonerod are appalled at his position in this affair. He has ever borne an enviable reputation; was known to possess one of the most peaceful dispositions, a kind heart and generous soul. They cannot now be made to believe that he would wilfully deprive any man of his life, no matter what the circumstances might be, save and except in obedience to that law whose mandates will submit to no argument—the impulsive law of self preservation."
